

CM-F500B Two-cylinder Moulder Machine

CM-500B Dough Moulder Machine made entirely of stainless steel is suitable for sheeting and rolling up pieces of dough weighing from 30~2500g, especially for French bread. The dough is rolled up by two wool sleeves. Machine safety is ensured by an infeed conveyor belt and the electrical interlock safeguard situated above the belt before the sheeting cylinders. The dough is rolled by the gauging cylinders to ensure uniform weight, as if it were done by hand.

Specification:

Moulding Range: 30~2500 g/pc
Moulding Board Gap: 10~43 mm
Capacity: 3000 pcs/hr
Power: 3 PH, 50/60 HZ
Motor: 0.75 KW
Net Weight: 221 KG
Machine Size: 850 x 845 x 1200 mm (WxDxH)

Technical Features

1. Dough Moulder machine is suitable for low moisture dough roll forming, such as rosong bread, croissant.
2. Made entirely of stainless steel body, easy to clean.
3. Can change the dough outlet, coordinate the operator number.
4. Accordance with dough of different sizes, simultaneously up to two moulder dough.
