New released product – Glossy white Photo quality inkjet printable(Watershield)

We proudly announce our latest development.

With our Glossy white Photo quality inkjet printable disc, allow your customers print out ultra high definition customized artwork on the discs.

Using a printer with a built in disc printing feature, our latest inkjet enables printing results with unparalleled color accuracy and superior sharpness of detail.

Comparing to standard printable inkjet, only increase your cost USD 0.01 per disc.

Another outstanding feature of Glossy white Photo quality inkjet printable is that it can stand for water drop, hand sweat without causing damage to artwork.

Make your discs look professional then ever.

Note:

RSER values are based on the full surface tests carried out on Expert BDT-101 (Ver - 2.2.0.0)

** Media is recorded at 5x speed due to the drive OPU limitation

- This shows that media is Not Supported by the Drive.
- The media encountered Writing Error on the drive.
- The media is recorded at lower than rated speed.
- This combination gives RSER (Avg) > 2.00E-04, self readback OK
- This combination gives RSER (Avg) > 2.00E-04, self readback NG
- This combination is perfectly according standard
- Phase out This drive will no longer be updated
