

Flexible LED Light strip

1.Applications :

Area : Both indoor and outdoor usages are available

Usage : Linear Light, cove light, indirection lighting,

- 3D Letters, AD Boxes, light boxes .
- Interior design, specialty lighting, mood lighting, festival lighting.
- Outdoor building decoration, skyline effect, wall washer.
- Landscape lighting, space area design.

Features : - Slim and light weight, high visibility.

- Many selections for different engineering purposes.
- High luminous intensity, low power consumption, high power efficiency, long lifespan and EMI protection design.
- Made ready accessories and user friendly.

2.Specification :

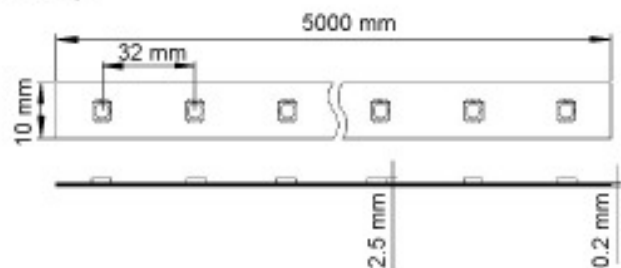

Outline Dim : 5000mm(L) x10mm(W)

LED Light Source : 5050 SMD LED 150pcs.

Input Voltage : 12VDC

Water Resistance : IP67

Operation Temp : -10°C~60°C

3.Optical perormance :

Beam Angle :10 degree

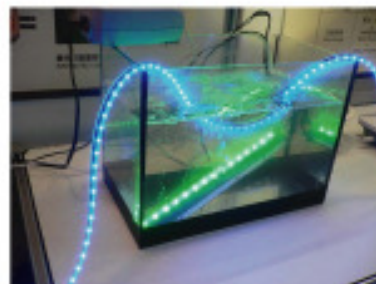

LED Color Temp.(Typical) : 2800-6500K / RGB

Color Temp.	Model Number	Input Voltage	Output Lumens
2800-6500K	FPC500C50Si-150YW/W	3000mA (Max)	W:3600 mcd YW:3250 mcd
RGB	FPC500C50Si-150M	2400mA (Normal) 3000mA (Max)	R:1400 mcd G:2900 mcd B:800 mcd

4.Warranty :

Average Rated Life(hr) : 20,000

IR Receiver:

IR Key Pad:

IR Amplifier:
